# NUVEX®

ARCHITECTURAL PRODUCTS

The demand for better ecological solutions in the construction industry for applications such as toilet partitions, while enhancing performance, makes NUVEX® high quality thermoplastic sheet the new material of choice, setting the highest performance and life-cycle standards.

NUVEX® toilet partitions have a number of vital properties, offering graffiti resistance, durability, strength, resistance to corrosion, low maintenance, cost-effectiveness, 100% recyclability and offering a low life cycle cost.

## Key Benefits

- Will not fade, break or splinter
- Will not delaminate or rust
- Solid colour throughout the material
- Strong, durable and impact resistant
- Chemically inert
- Graffiti resistant and easy to clean
- Resistant to mildew, mould and odours
- Moisture resistant

## Applications

- Toilet partitions
- Modesty screens
- Shower partitions
- Lockers
- Vanities
- Counters
- Furniture
- Benchtops
- Change room seating
- Wet area benches

**A** Broadmeadow Car Park - VIC

**B** Thomastown Recreation and Aquatic Centre (TRAC) - VIC

**C** Flat Rocks Caravan Park - VIC

“Nuvex is virtually maintenance free!”

- 100% Recyclable material
- No volatile organic compounds
- No formaldehyde
- No forestry products

**Colour Range**

**Size & Thickness**

19mm Thickness, 3600 x 1800mm Sheet Size  
 19mm Thickness, 3600 x 1650mm Sheet Size (Night Sky Only)

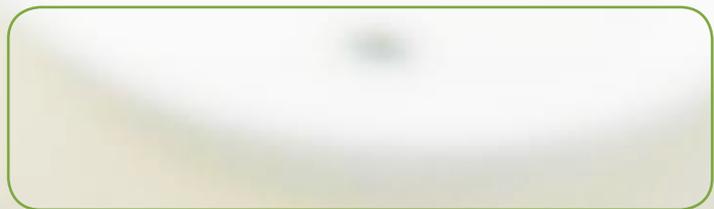

“ Not only is NUVEX® manufactured using a percentage of recycled polymer, the sheet itself can also be fully recycled at the end of its service period. ”

NUVEX® is a thermoplastic polymer used predominantly for toilet cubicle partitioning, wet area environments and high traffic applications. It has had proven success throughout the United States for over 30 years and has been used in some of America's most famous buildings, including Madison Square Garden in New York City.

NUVEX® adds value in terms of aesthetics and design flexibility.

Optional privacy rebate eliminate gaps between the pillar and door ensuring Total Privacy!
